- NOTES
- (1) All boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (2) The boundaries shown herein are based on the United States Geological Survey Interpretation Station 40° N. 100° W. 1000' and are subject to the usual State Plane Coordinate Grid Distortion, Central Zone.
 - (3) The proposed public roads are not maintained by the County Road Department.
 - (4) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (5) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (6) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (7) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (8) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (9) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (10) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (11) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (12) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (13) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (14) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (15) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (16) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (17) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (18) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (19) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (20) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (21) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (22) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (23) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (24) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (25) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (26) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (27) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (28) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
 - (29) The boundaries shown herein are based on the New Mexico State Plane Coordinate Grid, Central Zone (Zone 10N) and are subject to the usual State Plane Coordinate Grid Distortion.
